## **Announcement**

*Hume Studies* has published for many years in its November issue a review of The Hume Literature, itemizing publications and doctoral dissertations on Hume that have appeared since the previous review, together with corrections and updates. The Hume Literature for the November 2006 issue is being compiled by Professor James Fieser, of the University of Tennessee at Martin. Readers with titles of Hume-related material which has been published since the November 2004 listing of the bibliography are asked to forward particulars to Jim Fieser, at [jfieser@utm.edu](mailto:jfieser@utm.edu).
